against \$2.89 per-week last year for the same period of time.

We have increased the number and value of the stock on the farm and the general valuation has been maintained.

The town of Westminster has been admitted into the Association, to take effect April 1, and one or two other towns are considering the matter, and on the whole the experience of the past year confirms the wisdom of this method of caring for the poor.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Paxton:

Our association with the schools has been hardly long enough to more than give an idea of their present conditions, we having served only part of a year to fill vacancies. We have been placed somewhat under a disadvantage, being obliged to carry on work commenced by others and being left without any of the original members chosen at the last annual town meeting. We have also been tempted to resign our positions, but having somewhat of a determined spirit, disliked very much to give up a thing once commenced, until finished. Yet we feel that we have been successful in hiring earnest teachers with good methods, teachers that are well fitted and capable of teaching good schools.

Quite a number of the parents of children attending the Primary School asked us if we would not open that school for a winter term. We were strongly inclined to do so, but felt that if we did we would probably overdraw your appropriation. We are well satisfied, however, that great advantage might be derived and much progress made by the pupils attending this branch of our school, if it could be opened for a longer period of time.

The schools of a town will be such as the public demand. If public sentiment calls for economy by depriving its pupils of a term, or a few weeks of schooling, which would be to their great advantage, or by hiring teachers for a small sum, while others with greater ability and knowledge might be

hired for a little larger compensation, our school system will not advance much. On the other hand if the public will demand the best the town can afford, appropriate as large a sum of money as it possibly can, and rest satisfied with nothing but the best, good schools will be the result.

We believe the best results can be obtained by accepting the provisions of Chapter 431 of the Acts of 1888, enabling several towns to form a union and elect a Superintendent. In this way our schools can be under the instruction of a person who has made a special study of the work. The State makes a special appropriation of a thousand dollars for such unions.

We have had only one application for the payment of tuition, under the law found in Chapter 263 of the Acts of 1891. We quote the law below, thinking it an excellent thing for the promotion of education in small towns that support no high school, and thinking it may also be useful to some of the citizens who may wish their children to attend a high school.

Chapter 263.

SECTION 1. Any town not required by law to maintain a high school shall pay for the tuition of any child who, with the parent or guardian resides in said town, and who attends the high school of another town or city, provided the parent or guardian of such child before such attendance obtains the approval of the school committee of the town in which the child and parent or guardian reside.

SECTION 2. If any town not required by law to maintain a high school neglects or refuses to pay for tuition as provided in the preceding section, such town shall be liable therefor to the parent or guardian of the child furnished with such tuition, if the parent or guardian has paid the same, or to the town or city furnishing the same, in action of contract.
