## Report of the Town Clerk

#### VITAL STATISTICS

#### **BIRTHS**

#### January

1 Son to George and Joyce Nanigian.

#### **February**

8 Melissa, daughter to Joseph D. and Pauline F. Sage.

- 13 Rosemary Jean, daughter to Harold James and Florence Rena Mullaney.
- 14 Christopher Charles, son to Charles J. and Barbara Scholl.
- 15 Peter, son to David J. and Shirley A. Tobin.

#### March

2 David Howard, son to Steven H. and Barbro Nelson.

#### **April**

- 4 Gary Paul, son to David S. and Gloria M. Ludden.
- 11 Mary Margaret, daughter to Andrew J. and Teresa M. Williamson.
- 13 Paul Robert, son to Aime R. and Margaret E. Carrier.
- 14 Linda Jeanne, daughter to Paul and Marsha Roberts.
- 15 Brian Vincent, son to John and Jean T. Sheary.
- 15 Nancy Ellen, daughter to John and Jean T. Sheary.
- 22 Philip James, son to Richard F. and Joyce M. Sheridan.
- 25 Robert Joseph, son to Edward O. and Grayce C. Asselin.

#### May

17 Scott Richard, son to Allan R. and Glenda L. Schultz.

### July

- 17 David Scott, son to Wilson E. and Phyllis C. Ahlin.
- 18 Deborah Ann, daughter to Robert L. and Carol E. Price.
- 21 Roger Frederick, son to George John and June Frances Ahearn.
- 28 Briean Lang, son to Harold B. and Grace M. Jensen.

#### August

- 22 Christine Ruth, daughter to Joseph Robert and Judith Ann Donatelle.
- 24 Michael Lawrence, son to Blair L. and Barbara A. Norton.
- 29 Francis James, son to Francis C. and Gertrude F. Bertrand.

#### September

- 2 Gregg Stephen, son to Ralph J. and Lois M. Williamson.
- 19 Brian Lawrence, son to Malcolm Thiede and Carol Margaret Kleinknecht.

#### October

- 9 Robert William, son to Leo C. and Arline C. Gee.
- 18 Paige Elin, daughter to Carleton G. and Elin V. Bridgham.
- 19 Richard Eric, son to Arthur R. and Aline H. Nisula.
- 19 Ronald Andrew, son to Arthur R. and Aline H. Nisula.
- 21 William John, son to Edward and Ruth Grigaitis.
- 24 Michael Jerome, son to William M. and Marilyn T. Foley.
- 24 Karen Sue, daughter to Glen E. and Nancy Flodin.
- 27 Lynda Ann, daughter to Robert S. and Nancy A. Hansson.

#### December

7 Daughter to Raymond Gunnar and Gladys Una Lundberg.

This report on births is incomplete due to the fact that the births in Worcester for the months of November and December have not been received in the Town Clerk's office.

#### MARRIAGES

#### January

- 13 Charles M. Cary, Jr. of Worcester and Dorothy P. Niemela of Paxton.

## Report of the Building Inspector

I wish to direct the attention of all home owners, who are contemplating any changes whatsoever in their property, to the following excerpts from the Town's Building By-Laws:—Article 1, Section 1, also, Article 2, Section 1 state that no person shall erect, construct, alter, remove, demolish or substantially repair any building or structure without having first obtained a building permit from the Building Inspector.

Fallout shelters also come under this provision. Previously, there were no standard requirements for building fallout shelters but in May 1962, the Civil Defense Director mailed to local Building Inspectors official regulations for such construction. The purpose of the technical requirements is to establish an official standard providing the basis for effective family fallout shelter designs in conformance with Chapter 350 of the Acts of 1962. Anyone interested in having a fallout shelter may obtain the regulations from me.

Article 1, Section 11 warns that whoever violates any provision of these By Laws shall be subject to a fine in an amount not exceeding \$100.00 for each offense.

The new Building Code imposes and requires several more inspections than formerly made by the Building Inspector. These additional inspections are in cooperation with the Sanitary Inspector for surface and footing drains. The Planning Board has created more rigid installation requirements for side drains which, it is believed, will bring beneficial results.

Before surface or footing drains can be connected to the side drains on the street, permission must be obtained from Walter V. Pike, Superintendent of Highways, and the completed work also requires his approval. Such installations should correct the flooding of catch basins and the back flood of surface and footing drains, thus eliminating flooded cellars. In the past, the Town has had little control over this problem.

As many of you know, the ruling requiring a Certificate of Occupancy has been grossly disregarded. However at a meeting of the Town Counsel, Building Board of Appeals, Selectmen and the officials who are responsible for the various property inspections, the ruling in regard to the Certificate of Occupancy was reviewed and a penalty can be imposed against offenders.

During the year, the following permits were issued by this office:

Nu	mber	<b>Estimated Cost</b>
39	New Residences	\$714,300
13	Alterations	22,100
8	Garages	9,750
1	Commercial Building	20,000
1	Office	16,000
1	Dormitory	130,000
1	Micro Wave Repeater Station	2,500
1	Sun Deck	200
4	Stables and Sheds	1,475
	Total Estimated C	ost — \$916,325

#### Other Activity

- 2 Demolition Permits
- 4 Earth Removal Permits and an undetermined amount of Earth Removal Preventions
- 4 Renewal Permits
- 1 Permit Revoked
- 6 Permits Refused for inadequate lot size or drainage
- 1 Stop Work Order
- 42 Certificates of Occupancy Issued
- 4 Certificates of Occupancy Withheld
  - 4 Warning Orders pertaining to occupancy

- 6 Emergency Light Inspections at places of assembly
- 9 Board of Appeal Hearings for zoning changes Orders for Removal of Signs—an undetermined amount

The foregoing activities involved approximately 400 inspections by the Building Inspector.

Respectfully submitted,

Fred E. Watson Building Inspector

## Report of Civil Defense Director

To the Citizens of Paxton:

During the past year improvement to the departments communications and radiological facilities have been made.

A complete inventory of radiological instruments were placed in operation at Anna Maria College. This set of in-

struments is in addition to those at the Town Hall headquarters. The college will qualify as an alternate headquarters in the near future when radio equipment is installed.

The recent Cuban scare should serve as a reminder to all householders the necessity of being prepared. Below is a checklist of the more important items that should be set aside for an emergency.

- 1. Battery-powered radio with a spare set of batteries.
- 2. A minimum of two weeks supply of non-perishable foods—preferably those which do not require much cooking or heating. An additional six weeks supply of "minimum" rations (crackers, etc.) should also be stored.
- 3. Water. Minimum requirements are one quart per person per day. One gallon per day is recommended—to include washing.
- 4. Flashlights, lanterns, and camp stove with spare batteries and fuel.
  - 5. First aid kit.

It is recomemnded that the above material be stored in the home shelter area. Periodically the water supply should be replaced.

More detailed instructions for precautions against enemy or natural disasters is available from your local Civil Defense Organization.

-25 24 35 35 35 0 - 25 35

Respectfully submitted,

WILLIAM M. FOLEY
Civil Defense Director

## Report of the Dog Officer

CARL H. JOHNSON

Dog Officer

## Report of the Fire Department

The Fire Department or members of it were called upon for assistance 36 times as follows in 1962:

- 17 Grass and/or brush
  - 6 Motor Vehicle
- 2 Electrical
  - 3 Building
  - 1 Chimney
  - 1 Resuscitator
  - 1 Rescue Animal
  - 2 Persons Locked out of House
    - 1 Investigation
    - 2 False

Three of the grass or brush fires were in neighboring towns.

One of the largest woods' fires in Paxton in recent years started in Spencer on April 25th and extended into Paxton along the south side of Marshall St. as far as George Lamotte's lawn. Forest fire units from Spencer, Comm. of

Mass., Leicester, and Paxton worked on this fire. It was estimated that approximately 25 acres burned in Paxton.

A severe thunderstorm hit this area about 6:00 P.M. on May 19th. There were several lighting strikes at various houses in town but we were fortunate that all damage caused by the storm was minor.

Two of the apparatus, Engine No. 1 and the Squad truck, participated in the Bicentennial anniversary parade of the Town of Oakham. A muster team of fire dept. members competed in the muster sponsored by the Oakham Fire Dept. as part of the celebration.

Engine No. 2 and the Squad Truck took part in the Fire Prevention Week parade held in Worcester in October. The Worcester Chamber of Commerce presented each Fire Dept. that participated with a nice plaque in honor of the occasion and ours is on the bulletin board at the Paxton Garage in the area where the fire trucks are kept.

5 members were presented badges as signifying that they had completed the required instruction in the operation of the trucks and equipment,

Some of the following are additions to equipment or projects that were done in 1962.

1100 ft. of 1 and half inch hose was purchased and some of it has been used at fires.

The back doors of the Squad Truck were lettered.

A fire alarm box was purchased to be installed on Highland St.

Reflective paint was purchased and the tops of the sticks used to mark the location of hydrants was painted with this material.

A surplus military type radio receiver was bought and installed at the Paxton Garage in the area where the fire

trucks are kept. This is used to monitor the Mutual Aid radio frequency whenever a group is at the Garage in connection with the fire apparatus.

Respectfully submitted,

LESLIE E. ROBINSON
GORDON M. RICHARDS
GEORGE C. HUNT, JR.
RAYMOND H. KIMBALL
ROBERT L. PRICE
Board of Engineers

## Report of the Board of Health

The following diseases were reported during the year 1962:

- 15 Dog Bites
- 1 Mumps
- 32 Chicken Pox
  - 1 Measles
  - 2 Strepic Throat
  - 1 T. B.

Again we request all parents or guardians to report all communicable diseases to the local Board, as required by State Law.

The following licenses were issued:

- 1 Kindergarten School
- 3 Methyl Alcohol
- 9 Milk and Cream

The following appointments were made:

Thomas F. Harney, Jr., Plumbing and Sanitary Insp. Carl H. Johnson, Insp. of Animals and Slaughtering. George L. McGovern, Burial Agent.

The Board meets at the Town Hall the first Thursday of each month. Please feel free to call on us for assistance.

Our Town Nurse has been busy, as you will see by her report in this book.

The Board of Health, and the School Nurse conducted Type I and Type III Oral Sabin polio clinics for children from 3 months up to, and including, the first grade, at the Center School. Approximately 500 doses were given for each type.

Another order for incinerators was placed during the year, and the Board will continue taking orders. Twenty-five, or more, incinerators must be ordered at one time to receive the special rate.

Respectfully submitted,

NORMAN C. DODGE, Ch. RAYMOND J. SAVIGNAC, Cl. KATHARINE B. WILSON Paxton Board of Health

## Report of the Public Health Nurse

Clinics held during the year were as follows:

420
452
66
66
51

#### Calls made during the year:

Cancer	4
Welfare	52
Arthritis	1
Other	370
Tuberculosis Case	1
Suspect	2
Postpartum	1
1 year school	1
Adult	4
Not at Home	2
Conference and Meetings	14

Your Public Health Nurse attended classes held at Westboro State Hospital and Worcester State Hospital during the spring and fall of 1962. The subject matter was Mental Health in the community and the role the Public Health Nurse can play in providing this type of care.

A contract between the Town of Paxton and the Blue Cross, Blue Shield was established to cover people having a prolonged illness. This contract became effective March 1, 1962.

There was a Polio Clinic in January 1963 for type I Sabin oral polio vaccine. Children 3 months of age to 18 years of age who have not received the vaccine will be eligible. A clinic for type 2 will be held in March.

Respectfully submitted,

JOYCE McEACHERN, R. N.
Public Health Nurse

\$137,866.95 \$137,866.95

We have installed 52 new meters and 173.5 Kilowatt of transformer capacity.

The department has installed 23 new poles for new lines as follows:

Monticello Dr.—11 35-foot poles and 2 30-foot poles Burtenmar Dr.—5 35-foot poles

Holbrook Lane—3 35-foot poles

Eugene Lane-1 35-foot pole and 2 30-foot poles

We have replaced on Pleasant St. from Asnebumskit Rd. to the Worcester Line 8 35-foot poles and 5 40-foot poles with 8 40-foot poles and 5 45-foot poles. Placed extensions on other poles not high enough so we will be able to install a 13,800 volt cable from Asnebumskit Rd. to the Worcester Line.

The consumption of electricity for 1962 was 4,876,800 Kilowatt hours or about 11.9% above 1961.

I wish to express my thanks to the so helpful Electric Light Commissioners for their cooperation and to our personnel for their help through the year.

#### Signed,

## ROY M. WENTWORTH Manager

We hereby submit the Manager's Report for our Department.

ROBERT HARRINGTON, Chrm. GEORGE T. DEWEY, JR. PAUL GARLOCK Electric Light Commission

## Report of the Plumbing Inspector

Board of Health Paxton, Massachusetts

#### Gentlemen:

I, hereby, submit the report of my activities in the performance of my duties for the year January 1, 1962 to December 31, 1962:

Plumbing permits issued	56
Plumbing Inspections	162
Sewage disposal permits issued	<b>52</b>
Sewage disposal inspections	156
Complaints faulty sewage conditions	9
Correct faulty sewage conditions	8
Foundation and cellar drainage inspections	51
Eating Place inspections	6
Occupancy approvals issued to Building Insp.	46

The new Building Code and the Plumbing Regulations of the Town of Paxton require the approval of the Agent of the Town Board of Health on all building sites before the Inspector of Buildings will issue a building permit, to ascertain that the site is adaptable to proper drainage for the foundations so as to provide a dry basement for the structure, that the soil is suitable for the installation of a septic tank and effluent field of sufficient size to provide proper drainage for the plumbing fixtures.

The adoption of the new Building Code has made it possible for the Inspector of Buildings to deny or delay to issue a permit until he and the Sanitary Inspector are satisfied that the site is suitable.

This is a service to the new home owner that your Inspectors had not been allowed to provide under the old regulations which accounts for some of the wet basement conditions that now exists.

In new and proposed sub-divisions, your Sanitarian im-

poses restrictions on lots that appear doubtful for proper sub-soil drainage, and these restrictions are in force until suitable and proper provisisons are provided to relieve the surplus ground water.

Mr. Fred Watson, the Town Building Inspector has given me his fullest co-operation in the enforcement of these regulations for which I extend to him my sincere appreciation.

Some needed revisions have been made in the Town Plumbing Regulations that will be presented to the voters at Town Meeting for approval. I request that they receive your favorable action and adoption.

Respectfully submitted,

THOMAS F. HARNEY, JR., Registered Sanitarian

## Report of the Planning Board

The wave of urbanization which has all but engulfed many previously rural towns is steadily encroaching on Paxton. The transformation of the Town from an agricultural to a residential area has brought with it the need of serving more people with present Town facilities; but also the need for providing wholly new services not needed for a rural population, paying for new and expanded facilities imposes a real burden on the taxpayer who must bear the brunt of their cost. Let's see what has happened to cause this change in the last ten years:

	1951	1961
Number of Dwellings	336	679
Assessed for	\$1,451,515	\$3,586,460
Live Stock	44,790	1,930
Total payment made by		
Town Treas. on warrant	\$164,567	\$696,863
School	37,869	226,681
School population	164	510

These figures were taken from Town Reports of the above years. To show you how completely we have become an Urban community from a farming community, we included the value of livestock, as you can see, practically finished in ten years.

A major concern of the Planning Board is how to minimize the impact of this urban growth on the rural character of the Town. Many persons are satisfied to live in the typical urban developments, but they also express their enjoyment of looking at, and driving through, and being surrounded by the open land owned by others. They will often say, "Let's keep Paxton small the way it is." Wonderful... But this land may not always be open. The Town in the very near future must consider ways and means of preserving these open spaces for future generations to enjoy.

Paxton has approximately 5000 acres of buildable land under present zoning. This open land can accomodate an estimated 8000 additional homes, estimated a four people per unit—32,000 additional person. Your Board hopes to present you a new proposal on zoning in the next year. With our close proximity to the Worcester water shed, this growth we have had in the last ten years will eventually require that we construct a sewage disposal system. This may be forced upon us if we don't make the first move. The Town should be preparing and making these studies while the U. S. Government is willing to help pay the cost.

Planning is a never ending process. New problems in subdivision control, in zoning, and in all phases of planning, present themselves daily. No plan can be devised that takes care of every problem and condition. Changes and revisions must be made to take care of unforseen problems. We must be on the alert to report to you on new and progressive ideas for the improvement of Paxton. Your Planning Board wishes that there were more hours in the evenings to spend on this planning process that is so important to the future of our Town. The Regional Planning picture has been slow to develop. Boylston, West Boylston, Leicester and Paxton have voted to become members, but the City of Worcester has been reluctant to join. Without the City we cannot start this most important Regional organization, which will benefit Worcester and each Town that becomes a member.

Revision of the Rules and Regulations governing the sub-division of land in Paxton were made this year, and we are now seeing how well they are protecting the taxpayer.

The Board has approved two developments—Hyacres and part of Kettlebrook Estates.

Respectfully submitted,

HERBERT F. WENTWORTH,
Chairman
FRANK BURBANK, Clerk
C. LEONARD TROTTIER
CHESTER ADAMSKY
DONALD W. KALLGREN

## Report of the Police Department

The year 1962 found Worcester County the target for many breaks, during the nighttime. A late patrol was set up to combat this situation and we feel very strongly, that this kept our breaks at a new low. We wish to thank the citizens of the Town for their alertness of their observations, which when reported to us helped to end certain nuisances.

After the State election in November it was mandatory to set up a guard on the election ballots, this was done at a cost of \$512.85 to the Town.

## Report of the Recreation Committee

The Paxton Recreation Committee has completed another year of gradual development of its facilities and programs. The Illig Dam has been reconstructed. The Pool Parking Lot has been enlarged. We have graded the land

between the Little League Field and Coasting Hill; and with the completion of the drainage, loaming and seeding, we will have another attractive and useful section.

A brief comment on our activities follows:

BASKETBALL PROGRAM: The Junior High boys have organized a league consisting of four teams which play Sunday afternoons from 2-4. This has been consistently well-attended for two years. The High School boys have the use of the gym from 4-6. Although their attendance does not warrant a regular league set-up, they have some very enjoyable pick-up games.

RECREATION PROGRAM: The attendance at this program has fallen off considerably—particularly amongst the girls. The Committee feels we would serve the interests of the Town better by taking advantage of Mr. O'Connor's talents as a swimming instructor to promote advanced swimming classes during this time. However, the Girls' Softball Team will continue as long as there is sufficient interest.

COASTING HILL: We have added another light pole and graded this area a little more, and we feel this is a highly satisfactory central scene of activity.

SKATING: Due to weather conditions beyond our control, skating has been a fiasco so far this year. However, with a little cooperation from the weather, we are hopeful that there will still be considerable skating and hockey.

WINTER CARNIVAL: In its second year, this program provided a most enjoyable two days. There were skating, skiing and sliding competitions for all ages, as well as saucer races for the small fry. A P.T.A. ham and bean supper, followed by a dance run by the Explorer Scouts added enjoyable evening activities.

LITTLE LEAGUE: This organization enjoyed another successful year—highlighted by our All-Star Team winning lits first game in outside competition.

INTERMEDIATE LEAGUE: Trouble in developing a good solid League hurt this group severely this year. We are hopeful that a few more teams will join with our boys next year.

RED CROSS SWIMMING CLASSES: There is no question that this program outranks all others in popularity. Even our enlarged parking lot is bulging at the seams with the cars that are necessary to transport the participants. These classes are producing a tremendous number of swimmers—a requirement that we feel should be met by every school-age child.

THE POOL—THE PROBLEM: The continuing existence of our Pool is being severely threatened. We have reached a point where a radical change must be made if we are to protect our investment. Your Committee plans to submit a complete proposal for resurfacing the pool as early in 1963 as weather conditions permit. This will be a major project, but a very necessary one—if we are to continue to provide our townspeople with clean, sanitary, enjoyable swimming.

TENNIS COURT: We have received several requests to install a tennis court. Since the volley ball court is not suffering from overuse, we feel the most economical solution would be to extend the existing asphalt to the proper dimensions. We hope to complete this in 1963.

Respectfully submitted,

ELIZABETH B. SHELDON, Ch. VIRGINIA B. FAY, Clerk WALTER D. WILDE, JR. FRANK RANTA DAVID K. BEACH, JR. REGINALD J. SMITH, Ex Officio, School Com. HERBERT F. WENTWORTH, Ex. Officio, Plan. Bd.

## Report of the Highway Department

#### CHAPTER 81

All Chapter 81 Roads were treated with asphalt and sand cover where needed. Brush was cut, tar roads were patched. Dirt roads were scraped two times, and gravel patched. Drainage structures were cleaned and repaired.

#### **CHAPTER 90 MAINTENANCE**

90 Roads were treated with stone and asphalt mix in rough places, and sealed with asphalt and sand cover in places where needed. Patching was done, brush cut, and drainage structures and water ways were cleaned and repaired.

Eleven thousand feet of shoulder work was done on Route 56 (Reservoir Drive).

#### CHAPTER 90 CONSTRUCTION

Forty thousand yards of fill were hauled and graded. Eleven hundred square feet of Rip Rap was laid around inlet end of Multiplate Culvert. This brings road from Station 80—to 128—up to sub base grade. This section is ready for graveling, guard rail, and surfacing in the year 1963.

#### SPECIAL ACCOUNT FOR HIGHWAYS

The end of Streeter Road at the Richards Avenue end was excavated and lowered three and one-half feet, widened eight feet. Slopes were graded and surfaced for a distance of four hundred feet.

Four hundred eighty feet of side drain was put in on Glen Ellen Road.

Four hundred fifty feet of side drain was put in on Larchwood Road.

One hundred eighty feet of twelve inch pipe, and two catch basins were put in on Alderwood Road.

Walbridge Road was widened, gravelled and surfaced for eight hundred feet.

All highway work was done under supervision of State Engineer.

A new White Line Machine was purchased, and white lines on 90 Roads will be painted in 1963.

The Highway Department has two—twelve ton trucks, Diamond T and Internationl, One John Deere large tractor with back hoe and  $\frac{7}{8}$  yard bucket, One small Ford tractor with mower and broom attachments, One ten ton grader with hydraulic wing, Six snow plows, One—five and one-half yard automatic sand spreader, One—six yard automatic sand spreader.

All equipment is in very good shape.

#### Town Garage

- 1 20 lb. Dry Chemical—Cartridge Operated
- 2 10 lb. CO2

#### Pump Station

1 10 lb. CO2

#### School

- 2 5 lb. CO2
- 1 20 lb. Dry Chemical—Cartridge Operated
- 8 Water Pressurizers
- 2 Fire Blankets
- 2 Automatic Alarms
  Fire Alarm Boxes inside and outside building

#### Town Hall

- 2 10 lb. CO2
- 1 20 lb. CO2

#### Library

- 2 10 lb. CO2
- 1 21/2 gallon Soda and Acid

## Report of the Board of Selectmen

**YEAR OF 1962** 

During 1962, the Selectmen held regular meetings twice each month and also met on numerous other occasions to take up matters which required a greater amount of time than is available at a regular meeting. Altogether, the Selectmen convened 39 times throughout 1962, thus averaging more than 3 metings each month.

The Selectmen reviewed the procedures for buying the Town's insurance coverages and concluded that some changes were desirable. The services of a professional insurance adviser were obtained and much time was given to developing new procedures which will result in a more equitable distribution of the Town's insurance business. Simultaneously, the coverages were analyzed and appropriate changes made to improve the Town's insurance proptection.

From time to time, the Selectmen make appointments to fill vacancies on committees, obtain members for new committees, etc. The Selectmen wish to express their appreciation for the cooperation and willingness of the citizens who have accepted these assignments.

Following is a list of special items which were taken up by the Selectmen with various committees, etc., as indicated, together with information on some of the Selectmen's activities, which may be of particular interest.

January 9

School Committee
Board of Health
Town Counsel
District Sanitary
Engineer
of possible solutions to

Discussion of possible solutions to a drainage problem

January 11

Superintendent of Highways

Procedure established for handling of telephone calls during a snow storm

January 25

Group of Town Residents

Discussion of necessity for sidewalks in those areas where children walk to and from school Discussion of equipment for removing snow from sidewalks

January 31

Engineer from State Department of Public Works

Discussion of removal of snow from sidewalks

February 8

Chief of Police Engineer from State Department of Public Works

Revision of Paxton's traffic regulations

February 8

Department of Public Works requested to make an engineering survey of junction of Routes 122 and 56 and make recommendations for improving intersection

March 29

Conservation Commission appointed

April 4

Department of Public Works requested to lay out traffic island for intersection of Streeter Road and Richards Avenue

April 12

Proposed Traffic Rules and Orders mailed to Department of Public Works for approval

April 17

Sidewalk Committee Discussion relative to sidewalk for Maple Street

May 10

Department of Public Works requested to rebuild sidewalk on Pleasant Street between West Street and Brick Steamer

May 10

Planning Committee for a Fire-Police Building

Progress report of Committee and discussion of further plans for a Fire-Police Building

June 28

Planning Board
Participation in Industrial Land
Survey sponsored by Worcester
Chamber of Commerce

June 28

Professional Insurance Adviser Discussion of Town's present insurance program July 12

Professional insurance adviser requested to survey Town's insurance coverages

July 30, September 27, October 11 and October 25

Professional Insurance Adviser

Development of new insurance program and changes in present coverages

August 30

Waterway easement into Boynton Park off Mower Street requested from City of Worcester

September 27

Letter sent to Department of Public Works indicating highway appropriations desired so that West Street relocation could be completed within next two years

September 27 and October 11

Group of Town Residents

Discussion of possible solutions to drainage problem on Briarcliff Lane

October 11 and November 29

Amendments made to Traffic Rules and Orders as suggested by Department of Public Works

October 25

School Committee Discussion of necessity for appointing a School Needs Study Committee

#### November 8

Superintendent of Highways Representative of College

Methods of improving dangerous corner at Van Wyck's on Grove Street

#### November 8

A temporary School Needs Study Committee appointed

#### November 29

Professional Insurance Adviser
Review of agents' applications for membership on Paxton Insurance Committee in connection with Town's new insurance program

#### November 29

Recommendations from New England Fire Insurance Rating Association re: fire safeguards in Town Hall, Town Garage and Schools sent to custodians of each building

Respectfully submitted,

GLIDDEN B. PIERCE, Ch. GEORGE C. HUNT, JR., Clerk JESSE E. MILLS, Th. Mem.

Total water department budget for 1962 was \$15,185.00.

In 1962 there were 56 new connections made, bringing the total full paid installations to 691.

Hydrants were installed on Monticello Drive, Berkshire Drive, Streeter Road and Burtenmar Road.

The first water main extension was made on Streeter Road starting at Richards Avenue and consisted of 1200 feet of 6 inch pipe.

Land takings around Asnebumskit Reservoir were completed in 1962 at a total cost of \$53,475.10. We are indebted to our town counsel Mr. Paul Revere O'Connell for the excellant job he did on this program, keeping the total cost of settlements nearly \$30,000 below our first rough estimate.

The engineering plans for the new pump house, the necessary dikes and associated work around the collecting basin were completed. We are asking the town for the necessary money to go ahead with this phrase of the project.

In 1963, we are also planning on completing the engineering work for the dam at the north end of the reservoir level in preparation for the summer of 1965.

During the year about two thirds of the trees and thick brush were cut down under the supervision of the department superintendent Mr. Walter Pike, and this work is continuing.

Respectfully submitted,

HAROLD A. MARTIN, Ch.
CHANNING H. WASHBURN,
Clerk
NORMAN H. OSGOOD,
Board of Water Commissioners

## Report of the Board of Appeals

The Board of Appeals acted on nine petitions in 1962. Eight were approved and one was partially approved.

AUGUSTUS P. MULLANEY,
Chairman
ROBERT B. BURKE, Clerk
BURTON JOHNSON
EDWARD SAVICKAS
LINWOOD M. ERSKINE, JR.
Board of Appeals
WILLIAM E. LINDQUIST
ROBERT DILLMAN,
Alternate members

## Report of School Needs Study Committee

Upon the request of interested citizens and the recommendation of the School Committee, the Selectmen appointed a new School Needs Study Committee in November, 1962. This group, composed of the three members of the School Committee and four members at large, will serve until the Annual Town Meeting in 1963 when the Town will be asked to approve a permanent School Needs Study Committee.

The Committee has had two formal meetings and representation at the preliminary Engelhardt Report meeting of the Wachusett Regional School District Committee. Its purpose is twofold:

- (1) investigate and make recommendations concerning facilities now existing and already planned, and
- (2) establish a basis for periodic reevaluation as the school needs of Paxton children change in future years.

Respectfully submitted,

REGINALD J. SMITH, Ch. JAMES J. MELLOR, Sec. CHARLES C. CRAIG ROBERT J. HALL ROBERT W. HEIN RICHARD A. LAPIERRE VIOLA PRENTICE

## Report of the Conservation Commission

The creation of this Commission has led to much misunderstanding insofar as the public is concerned. To clarify our position, let me quote Chapter 40, Section 8 of the General Laws of Massachusetts.

"The Commission established for the promotion and development of the natural resources, and protection of water shed—and shall keep an index of all open areas, including lands owned by the Commonwealth or lands owned by the town. It may recommend a program for the better utilization of all such areas."

We are most fortunate that our Planning Board has with great foresight, carried out these ideas for the last twenty years.

Briefly, the responsibility of conservation education is ours. We are here to advise and assist any department of the town or any individual.

We have so far, with no funds, presented the film KEEP AMERICA BEAUTIFUL to the school and to a PTA meeting which was open to all residents of the town. Two brief talks have been given to the school and one to the Girl Scouts

At five meetings held, we have discussed plans for the preservation of swamp, land, possible acquisition of land in the future for recreation, anti litter signs for our road, soil erosion, pesticides, and water pollution.

The Commission hopes to celebrate Arbor Day with the planting of trees around Illig Pond and if funds are forthcoming, plans to present a series of adult education films next fall.

Respectfully submitted,

JOAN K. CARMODY, Ch. CHESTER E. ADAMSKY EDWARD Z. SAVICKAS ELIZABETH B. SHELDON DONALD C. ALEXANDER

## Report of the Bicentennial Committee

In November 1961, the Bicentennial Executive Committee had its first organizational meeting and since then has met a number of times for the purpose of detailed committee organization.

All committees have not been formed yet, nor all details of events worked out.

It is planned to hold the celebration during the month of September 1965 and a tentative list of events has been decided—

Pageant
Parade
Various Luncheons
Bicentennial Ball
Square Dance
Firemen's Muster

It is hoped that all residents of Paxton, who would be interested in participating on the celebration committees, will contact one of the names listed below. It would be appreciated, also, if anyone who knows of items of historical interest to the Town would call them to the attention of the committee.

O. FRANK BURBANK,
General Chairman
ROBERT M. BRODEUR
BETTY CUNNINGHAM
HILTON CUNNINGHAM
BETTY C. LAWRENCE

# ANNUAL REPORTS

OF THE

# SCHOOL DEPARTMENT

OF THE

# Town of Paxton

MASSACHUSETTS

FOR THE

Year Ending December 31, 1962

Whitney Press, Paxton, Mass.

# Report of the School Committee

The School Committee is pleased to submit the following reports of the activities of the School Department for the past year. The growth of the pupil population is reflected in the needed addition voted by the taxapayers in a special meeting in July.

The School Committee will add three new teachers during the coming year, one to begin in January, 1963 and the other two to be employed in September. We will then have three sections of grades 1, 2 and 4 and two sections of the remaining grades, plus a special class.

The General Court increased the minimum salary of teachers from \$4000 to \$4500 during the past year. Paxton had been \$100 over the minimum salary as set by the State, so although the impact on the budget was great, it was lessened somewhat by the fact that Paxton had already moved forward.

During the year the School Committee has served as part of a School Needs Study Committee. Mr. Robert Hall continues as Paxton's representative on the Wachusett Regional High School Committee and as the chairman of School Union No. 24 Committee. Mr. Reginald Smith is the School Committee's representative on the Recreation Committee and also serves as chairman of the School Needs Study Committee which was activated in December.

During the summer a heating zone control was installed in the old building and further painting was done and tile flooring was installed. This work was part of the three year plan that was instituted by the School Comittee to modernize the old building.

According to the Englehardt Report given to the Wachusett Regional Committee members, Paxton by 1967-68 will have the second largest student population in grades 1-8 in

School Union No. 24 which comprises Holden, Paxton, Rutland, Sterling, Princeton and Oakham. This growth will result in increased budgets and further building construction is inevitable.

The Committee again takes this opportunity to thank the public, the superintendent and administrative staff, the school principal and his staff for their fine cooperation.

Respectfully submitted,

ROBERT J. HALL CHARLES C. CRAIG, Sec. REGINALD J. SMITH, Ch.

### Superintendent of Schools

Paxton's school population continues to increase at a very rapid rate. This past year saw the enrollment increase by 13%.

Two basic problems face us at the present time:

- a. additional classrooms for Grades 1-6
- b. facilities to meet the needs of a modern Jr. High School program.

To plan additional classroom space to house the expanding enrollment is not enough. The four room addition which we hope to occupy in September of 1963 will allow us to maintain classes of approximately 30 pupils and also allow the necessary time to work toward a solution for our Junior High program.

The Englehardt report recommends the building of a "middle" school for grades 6-8 for the towns of Rutland, Oakham and Paxton. The recently formed school study committee should thoroughly investigate the Englehardt Report in light of Paxtons' needs.

If Paxton does not combine with neighboring towns on a cooperative basis to solve the Junior High problem, it should take immediate steps to solve its Junior High needs on the local level. Under the capable guidance of Mr. McManus, and a fine teaching staff, the school is operating at a very high level. Mr. Howard Cresswell and Mr. Charles Craig are to be congratulated for the fine maintenance and custodial work performed over the past year.

The School Committee is to be commended for its constant attention to the present and future needs of the Paxton School system.

Public education is the hinge of America's door to the future. How well the door will function depends upon the condition of the hinge. Strained as never before, the hinge—public education—needs our most earnest attention—now.

CHARLES L. BOWLBY WILLIAM F. CAREY

### Principal's Report

I am happy to submit a report on the Paxton Center School for the year 1962.

As of October 1, 1962 our enrollment was 447 pupils which represents an increase of 57 since October 1, 1961. This is the greatest one year increase in Paxton's history.

Several changes in the teaching staff took place. Resignations were received from Mr. Charles Ricardi, Mrs. Lydia Smith, Mrs. Janice Hansen, Miss Ruth Ennis and Mr. Robert Lister. We welcomed to the faculty Mr. James Ross, Mrs. Nancy Gerdes, Mrs. Shirley Smiley, Mrs. Elizabeth Kershaw, Mrs. Elizabeth King and Mr. Daniel Mortell.

We can again report satisfactory results from the annual standard achievement tests which are administered each spring. Following are the average class scores, compared to the national averages for each grade. You will note that without exception, the Paxton pupils are well in advance of the national average.

Grade	National Average	Paxton Average
3	3.8	4.5
4	4.8	5.3
5	5.8	6.5
6	6.8	7.9
7	7.8	8.7
8	8.8	9.6

We thank the PTA for its fine support and cooperation throughout the year. Although fewer meetings were held than in the past, attendance was excellent at each meeting. W are particularly indebted for their support of the room libraries during the past several years.

#### Graduates in June were:

Paula A. Ahearn	Sharon A. Ludden
Carol A. Albro	Joyce L. Mannila
Allan W. Antell	John R. MacDougall
Kenneth H. Carlson II	Wayne T. McMahon
Barbara A. Carney	William T. O'Connor
Terrence J. Cooney	Ann L. Palenius
Kenneth E. Desrosiers	Susan Palmer
Paul M. Erickson	Carol J. Penttila
Raymond P. Faucher	Philip Reid
Clifford R. Fogg	Marion F. Richardson
Caroline A. Girouard	Marion L. Robinson
George D. Goulding	Philip E. Robinson
Kenneth L. Grensavitch	Paul J. Rochette
Jonathan D. Hall	Judy B. Sheldon
Curtis A. Hammar	Jeffrey S. Smith
Judith L. Hammar	Robert E. Smith
Linda J. Hassan	Larry C. Spongberg
John R. Hughes	Sharon L. Stevens
Richard L. Jenkins	Paul R. Trudeau

Rosemary E. Trum

AWARDS: American Legion—Curtis A. Hammar and Joyce L. Mannila; Hazel Gay Award—Terrence J. Cooney; Paxton Teachers Association—Allan W. Antell and Sharon A. Ludden.

We are indebted to the School Committee, administration, parents and townspeople for their support and assistance during 1962.

Respectfully submitted,

CHARLES F. McMANUS
Principal

### Report of the Art Supervisor

I am very pleased to submit my first town report. I visit the first through eighth grades in Paxton.

The Art Program which I am presenting this year is two-fold in nature. In addition to purely creative activities, I am introducing practical skills associated with Art. The children are given a basic knowledge of design and color, lettering, figure drawing, and perspective drawing. The boys and girls enjoy both types of activities and are beginning to see the relationship between them. I constantly refer the children to nature, thereby instilling an appreciation and knowledge of the world around them.

The association I have made with the teachers, students, and administration has been most rewarding to me. The only difficulty I am encountering is lack of time and facilities. I feel the ultimate answer to this problem is to have an Art Supervisor and an Art room for each school. I realize this solution is not possible in the near future, but might be considered as a long range program.

On behalf of the classroom teachers and the children, I would like to express my appreciation to the school committee for adding an extra half day to the Art Program. In addition to allowing me to teach the seventh grades separately, I am now able to supervise the Art instruction in the first and second grades.

MARY ANN GRIFFIN

# Report of Instrumental Music Supervisor

All pupils in the fourth grade have once again been given a full year's instruction in music theory. This course has a two-fold purpose. Primarily, it introduces the child to the basic terms and expressions found in music and attempts to teach fundamental facts concerning time signatures, key signatures, scales, musical notation, and rhythmic patterns. It is hoped that the knowledge acquired in this course will serve as a basis for the music reading program in the upper grades. The second purpose of the course is to acquaint the child with a beginners instrument, the tonette, and to formulate good study and practice habits. In many cases, the degree of the child's success in dealing with the tonette will aid in determining potential achievement on a band or orchestral instrument.

Instrumental instruction is offered to any child who is academically qualified and who has reached the fourth grade level. Four instrumental classes are held weekly serving beginning, intermediate and advanced students. It is to be hoped that, as a student progresses, he may be guided toward private instructions and will utilize his talents in high school musical organizations. It is further hoped that a concert band may eventually be organized at the Paxton school, as the number of instrumental students increase.

I would like to thank Mr. McManus and the entire faculty and staff of the Paxton Center School for their encouragement and support of this program.

Respectfully submitted,

RICHARD H. BOWDEN Supervisor of Instrumental Music

### Music Report

The vocal teacher met weekly with grades 2-6, less frequently with grade 1, and pursued a program of rhythmic activities, listening and the building of an extensive song repertoire. Part-singing was encouraged in grades 5 and 6.

The 7th and 8th grades met weekly to study and appreciate some of the best music from many countries. Glee Club performed at the Graduation Exercises and the Christmas assembly.

A large number of students from Grades 4-8 attended the Children's Concert in the Worcester Auditorium again this year in October.

Scheduling has been more difficult this year as 17 classes plus Glee Club must be covered in a day and a half by the vocal teacher.

Respectfully submitted,

LINDA CAMPBELL

### French Program

Paxton has had a French Program for three and one half years and the results shown are, in most cases, amazingly good. The teaching pattern does not vary too much from last year:

The fourth grade pupils are taught the everyday words that one would use while in school or at home. Correct pronunciation is emphasized; the course is exclusively a matter of hearing, understanding and repeating.

The fifth grade reviews the work of the past year and goes on to develop the vocabulary and to start on conversation. The scope is broadened to home—school—community. There is writing and only rudiments of grammar which must be known, are introduced.

The sixth grade, after a quick but thorough review, starts to recognize the written French word, comparing it to the pronounced word. Some grammar is introduced.

This year, the program is carried over to the Junior High. A formal textbook is used at this level. The study of grammar, reading, writing and conversing is carried on.

The French Program certainly is a boon to most students. The "exposure" to which they are submitted necessarily conditions their ears so that they will be prepared to advance more rapidly and more efficiently once they reach high school level.

Respectfully submitted,

#### DANIELLE ABBOTT

## Report of the School Nurse

Clinics held during the school year were as follows:

Vaccination	8
Diptheria Tetanus Whooping Cough	95
Pre-school Registration	52
Polio Clinic, Type 1	420
Polio Clinic, Type 111	452
Mantoux	66
Mantoux Reading	66
Flue Vaccine	51
Adult Health Supervision	3
Physical Examinations	
Dr. Channing Washburn	
Dr. Joseph Krivda	185
Nurse Teacher Conf.	31
Nurse Pupil Conf.	520
Audio, Visual Tests	449
Conf. and Meetings	30

Your present nurse began her duties as school nurse on May 7, 1962. Dr. Joseph Krivda began his duties as school physician on Sept. 4, 1962. Physical examinations have been done on children in the first, fourth, and seventh grades. All children, boys and girls, playing basketball were given physical examinations before being accepted on the teams. The school children have received their audio and visual examinations. Notifications have been sent to the parents of those who failed. A polio clinic for type 1 oral Sabin vaccine will be held on Jan. 23, 1963. Any child aged three months to eighteen years of age, who has not received this, will be eligible. A clinic for type 11 will be held in March. The clinic for type III will be held in May.

### Respectfully submitted,

JOYCE McEACHERN, R.N. School Nurse

### Report of the Wachusett Regional School District Committee

The Wachusett Regional School District Committee met and reorganized on March 12, 1962 as follows:—

Byron S. Davis		$\mathbf{Holden}$
William F. Lionett, Treasurer		Holden
Mrs. Harriet S. Travis		Holden
Robert J. Hall		Paxton
Bruce N. Smith, Secretary		Paxton
C. Wesley Dingman, Chairman	,	Princeton
David Krashes		Princeton
Leonard F. Janes		Rutland
Nelson M. Calkins, Jr.		Rutland
Mrs. Avis C. Bourne		Sterling
David P. Atkins, Vice Chairman		Sterling
William E. Smith		Sterling

In accordance with Article 1, Section 3, of the by-laws —"Any town having more than 200 pupils enrolled at the

Regional School on October 1st of any year shall elect one additional member at the next annual town meeting"—Sterling elected William E. Smith to the committee. Mr. Smith moved from Sterling in November and the Sterling Selectmen named Francis X. Lambert to fill the vacancy until the next election.

During the year the committee held 21 regular meetings and 7 spcial meetings in addition to numerous sub-committee meetings. Among other subjects, sub-committees studied and reported on the various aspects of the 1963 budget, the programs in Agriculture, Home Economics, and Driver Education; and the operation of the Superintendent's office.

The committee spent a good deal of time studying the increasingly acute problem of growth in enrollments, both at the high school and at the lower levels within the region In addition to time spent on this problem at nearly every regular meeting, six special meetings were called to study next steps at Wachusett. On June 7 the committee voted: "that the Wachusett Regional School District Agreement be amended to allow the District to to be expanded to include grades 7 and 8, and that the necessary steps to adopt this amendment and the other amendments to the agreement necessary to make this amendment valid be taken." vote carried by a 7-3 vote of those in attendance. of the fact that the committee was not in unanimous agreement and in view of the many problems which would have to be solved in expanding the region, the committee decided to obtain the services of a recognized expert in the field of educational organization for guidance to the best approach to our problem. On July 9 the committee voted to hire Engelhardt, Engelhardt, and Leggett of New York to conduct a survey of the future educational requirements of the region. Dr. Nicholas Engelhardt, Jr. made a tentative report to the committee on December 10 and at the time of this writing we are awaiting presentation of his final report on January 14, 1963. It is hoped that as a result of this report and the exhaustive study the committee has made

that the Regional Committee will be able to point the way to the solution of the future educational requirements throughout the region.

The Wachusett Committee adopted a new salary schedule effective January 1, 1963. This salary schedule raises the beginning teacher's salary to \$4,500 and through additional increases and steps in the schedule raises the maximum a teacher may receive with advanced degrees, years of experience, and meritorious teaching to \$8,600. Although the impetus to adopt a new salary schedule was due in part to the raising of the minimum by the Massachusetts Legislature, a major consideration was to offer salaries that will attract and retain quality teacher. We believe that the cost of this increase in salaries will become an investment in a higher quality of education at Wachusett.

Your committee wishes to thank the administration, staff, pupils, and parents for their cooperation in making Wachusett Regional High School a better school.

Respectfully submitted,

BRUCE N. SMITH, Sec.

## Principal's Report

#### ENROLLMENT

Student population at Wachusett Regional High School continues to grow each year. January 5, 1962, there were 1, 303 pupils in attendance. January 5, 1963, there were 1,428, a gain of 125 students. Of this total, 746 are from Holden, 254 are from Sterling, 170 are from Rutland, 138 are from Paxton, 93 are from Princeton, 25 are from Oakham, and there is one student each from Leominster and Worcester. Class sizes this year are: Post Graduates, 5; Seniors, 278; Juniors, 317; Sophomores, 410; and Freshmen, 418. There are 744 boys and 684 girls. By using the 22

rooms in the new addition, we are getting along quite well without overcrowding. Only one period a day is it necessary to use the Cafeteria for a study hall. However, unless something is done right away to provide more space for the high school students, we will shortly be badly overcrowded again. The rated capacity of this building is 1,350. We, at present have 1,428. October first, the enrollment was 1,441. Estimated enrollment (Dr. Englehardt) for 1963-64 is 1,532.

#### STAFF

As the student population increases, so, too, does the school staff. We now have 2 administrators, 4 guidance personnel, 81 teachers, 1 librarian, 1 nurse, 4 secretaries, 19 cafeteria workers, and 11 custodians.

As is to be expected, several changes have taken place amongst our personnel. Spencer Potter has left our Guidance Department to become Assistant Superintendent for Secondary Services. His place has been filled by Henry Miles, formerly a Driver Education Instructor. An additional guidance counselor, John Bigelow, has joined the department.

No longer with us in the English Department is Robert Barker, our very successful Speech and Drama Instructor and Coach of outstanding dramatic productions. His duties have been taken over by Richard Hayman. Other English teachers who have left are: Joseph Bates, Miss Carole Brown, Miss Elizabeth Mayotte, and Miss Mary Renaud. Our foreign exchange teacher, Miss Margaretha Knuyt, has returned to her native Holland and Albert Theriault has returned from there to his regular position here as an instructor in English. Other teachers new to our English Department include: Richard Antrum, Mrs. June Brady, Dan Clemmer, Miss Marilyn Lundquist, Geoffrey Sewall, and Miss Urve Virmastu.

Leaving the Language Department were Paul Dauphinais and Mrs. Roberta Grandone. Replacing Mr. Dauphinais are two cadet teachers from Assumption College. Each will teach here one-half year. They are Miss Ann Mullaney and

Miss Judith Guilfoyle. Miss Susan Elms has taken over Mrs. Grandone's duties. Added to the department are Salvatore Sciarrone, who is teaching Spanish and Mrs. Stella Kuziniec who handles one class in Elementary Russian.

In the Industrial Arts Department, we now have Gordon Battye and Richard Newell taking over for Augustus Luparelli and Leo Bachant who have left our system.

Miss Joyce Teir has left our Mathematics Department while Paul King and Wyman Lord have begun their duties in this area.

The Boys' Physical Education Department shows two changes and the Girls' Department one. Arnold Pinto, William Reynolds and Miss Linda Viarengo have left and have been replaced by Jean Morin, Thomas Snelson, and Miss Beverly Gammell.

Frederic Robbins is no longer a member of the Science Department having been replaced by Miss Sandra Hartman. One extra teacher was needed because of increased enrollment in this field and Ray Brackeen was added.

From the Social Studies Department, we have lost Miss Judith Grace, Constantine Mourginis, and Mrs. Ann Shetler. They have been replaced by Mrs. Elizabeth Clemmer, Glenn Stratton, and David Tarkiainen. Frank Minasian has also been added to this department.

### CLASS OF 1962

The best available information concerning the 252 graduates of the Class of 1962, as of January 1963, is as follows:

### **Evaluation**

Since last spring, we have been making a self-evaluation of all phases of our operations here. This will culminate in a three-day inspection by a visiting committee selected by the New England Association of Colleges and Secondary Schools. This evaluation has to be performed by

all public secondary schools once every ten years in order for the school to continue to be a member of this association which is the accrediting organization for New England.

All in all, while we will never be free of problems, we feel that our school is operating smoothly and well. We are proud of it and of the fine reputation it has earned over the short space of time it has ben in existence. Many thanks to those who have cooperated so well and made this result possible.

Respectfully submitted,

NEAL T. SKILLINGS,
Principal
Wachusett Regional High School
